ABOUT SUMMIT

In today's fast-evolving healthcare landscape, hospitals face mounting challenges—rising patient expectations, technological disruption, workforce burnout, regulatory complexities, and financial pressures. The **3rd Leadership Summit** for Hospitals is a timely, high-impact platform designed to empower hospital leaders with insights, strategies, and solutions to navigate these complexities and drive meaningful transformation.

This summit brings together visionary leaders, policy influencers, healthcare entrepreneurs, and domain experts to share best practices and explore forward-thinking approaches to leadership in hospitals. Over the course of eight dynamic sessions, participants will engage in deep conversations on critical leadership domains—ranging from clinical excellence and workforce strategy to operational efficiency and digital transformation.

Special focus will be given to **HR leadership, financial sustainability**, and **patient-centric innovation**, recognizing that empowered teams, resilient systems, and compassionate care are the pillars of high-performing hospitals. The summit also offers a valuable opportunity to connect with peers, learn from case studies, and draw inspiration from real-world success stories.

We invite CEOs/ COOs/ HODs, Hospital Administrators, Facility Managers, Nursing, Marketing and Finance Directors and all emerging leaders to attend the Summit

Join us at the Leadership Summit and be part of a leadership movement that puts people, purpose, and performance at the heart of healthcare.

AHPI LEADERSHIP AWARDS

The AHPI Leadership Awards recognize excellence in healthcare leadership & Governance across strategic vision, Quality and patient safety, innovation, people-first culture, financial stewardship, digital health, and community impact. Honoring individuals and institutions driving transformative change, these awards celebrate those who lead with purpose, empower teams, and shape a patient-centric, high-tech, and sustainable healthcare future.

Innovative Hospital Governance Structure: 'To assess institutional governance mechanisms and their effectiveness.'

Leadership Engagement in Quality and Safety: 'To evaluate hands-on leadership involvement in quality initiatives'

Innovation in Financial Stewardship & Sustainability: 'To assess fiscal responsibility and long-term viability'

Leadership Excellence in Patient-Cantered Service Quality: 'To evaluate dignity, communication, and empathy-based care delivery'

Innovative Leadership in Managing & Monitoring Patient Satisfaction: 'To assess how patient satisfaction is measured and acted upon'

Excellence in Holistic Staff Engagement & Recognition: 'To evaluate how the hospital nurtures, motivates, and retains staff.'

Hospitals are encouraged to apply for these awards. Preparing for awards itself will enable hospitals to vastly improve in respective categories, whereas receiving awards will be bonus.

Application forms along with criteria for evaluation are available on AHPI website
