"The Global trust earned by the Indian Healthcare Sector has led to India being called the 'Pharmacy of the World' in recent times."

- Narendra Modi

Gujarat has proven its mettle as a flag bearer with around one-third of India's pharmaceutical manufacturing. The efforts made by the Government of Gujarat in tune with Government of India in the healthcare sector have been transformative and rejuvenating. Significant policy decisions and notable initiatives taken by the Government of Gujarat has lead to such a great miracle happened. These endeavors have not only reaped commendable benefits but also created a concrete base for a bright future of the industry.

It is indeed a matter of pleasure that **Association of Healthcare Providers (India)** is organizing its yearly **CONCLAVE** during **2nd and 3rd February, 2024** at **Gandhinagar**. I am delighted to learn that the theme of this international conference is **"INDIA AS VISHWA GURU@2047: From Vision to Reality"** to deliberation on key issues concerning hospital operations and allied disciplines. It has been observed that such meet may became a medium to exchange ideas and source of knowledge about each-others' innovations as well. I, hereby, extend my heartiest best wishes to the organizing team, participants and all the stakeholders for the success of the conference and for their bright future ahead.

(Bhupendra Patel)

29 February 2024

Message

It is heartening to note that the 11th Annual AHPI Global conclave, with the theme "India as Vishwa Guru in Healthcare at 2047, from Vision to Reality," held at Ahmedabad on 2nd & 3rd Feb 2024, was a grand success.

The theme of the conclave holds tremendous significance as we look towards India's role as a global leader in transforming the healthcare landscape by embracing new technologies, promoting accessibility, and ensuring equitable healthcare opportunities for all by the year 2047.

AHPI has been working on various policy initiatives, including efforts towards the Ayushman Bharat National Digital Health Mission. APHI's focus on geriatric care and the development of DNB residents is highly laudable.

As the souvenir is released post the conclave, it serves as a reminder of the transformative discussions and meaningful partnerships formed during this event.

I look forward to further strengthening our relationship and continuing to work together to achieve our shared healthcare goals.

Messages

Mr. Jaxay Shah
Chairperson,Quality Council of India (QCI)

Dear AHPI Family,

Congratulations on the resounding success of the AHPI Global Conclave 2024!

The theme of the conclave, **India as Vishwa guru in healthcare@2047: "From Vision to Reality"**, echoes the ambitious yet achievable objectives we are collectively pursuing within the healthcare sector.

The discussions held during the conclave on healthcare delivery systems, focusing on national initiatives like Ayushman Bharat and its digital components, were timely and essential in shaping our collective trajectory. Deliberations encompassing critical themes such as financial sustainability, hospital performance, nursing roles, and digital health technologies are not only highly valued but also imperative in the current landscape. Additionally, the recognition of 88 hospitals through the 'AHPI Awards for Excellence in Healthcare' celebrated the remarkable contributions of healthcare professionals, serving as inspiration for others.

AHPI has shown a steadfast commitment to fostering cooperation among stakeholders and advancing healthcare accessibility, affordability, and quality. This aligns closely with QCI's mission to ensure that India's healthcare services adhere to the highest standards. The collective efforts of AHPI, along with the NABH and NABL – both constituent boards of QCI – can prove immensely beneficial in establishing and maintaining quality standards, consumer satisfaction, and technical competence in healthcare organizations, laboratories, and proficiency testing providers. AHPI's advocacy for healthcare initiatives and support for schemes like the Pradhan Mantri Kaushal Vikas Yojana (PMKVY), especially during the COVID pandemic, demonstrates its dedication to enhancing the well-being of healthcare professionals and driving innovation forward, shaping the future landscape of healthcare in India.

The collaboration between QCI and AHPI, outlining initiatives such as awareness programs and capacity building activities, **holds great promise in enhancing the quality of healthcare across our nation, particularly in the emerging rural areas.** This collaboration stands as a testament to our shared commitment and serves as a crucial stepping stone toward the seamless delivery of healthcare services, ensuring that every citizen has access to high-quality care.

As we navigate the challenges and opportunities within the healthcare sector, let us remain resolute in our commitment to excellence and collaboration. **Together, we can realize our shared vision of a healthier, more resilient India.**

In closing, I extend my best wishes for the continued success of the AHPI Global Conclave 2024. **May it serve as a testament to our collective endeavours and aspirations in transforming healthcare for the better in the Amrit Kaal.**

Warm regards,

Jaxay Shah
Chairperson,
Quality Council of India.

Dr. Devi Shetty, MS, FRCS (England)
Chairman and Senior Consultant Cardiac Surgeon

Message

It gives me immense pleasure to extend my heartfelt gratitude and congratulations to each one of you for making the 11th Annual AHPI Global Conclave a great success. The theme of this year's conclave, "India as Vishwa Guru in Healthcare at 2047, from Vision to Reality," encapsulated a vision of India's transformative role in shaping the future of healthcare worldwide.

Throughout the conclave, everybody witnessed inspiring discussions, remarkable insights, and fruitful collaborations aimed at paving the way for a healthcare landscape that is technologically advanced, accessible, and equitable for all.

I firmly believe that by embracing new technologies, fostering accessibility, and ensuring equitable healthcare opportunities for every individual, India has the potential to become a global leader in healthcare by the year 2047.

The release of this souvenir marks a significant milestone in our journey towards realizing this vision. It symbolizes the rich exchange of ideas, experiences, and perspectives that took place during the conclave, leaving an indelible impact on all of us.

I would like to express my sincerest thanks to all the distinguished speakers, industry experts, healthcare professionals, policymakers, and delegates who graced this event with their presence and contributed their invaluable knowledge and experiences. Your engagement and active participation played a pivotal role in making the conclave a resounding success.

I would also like to acknowledge the efforts of the organizing committee, volunteers, and our esteemed partners without whom this event would not have been possible.

As we bid farewell to the 11th Annual AHPI Global Conclave, let us carry forward the spirit of collaboration and innovation that was fostered during this event. Let us continue to work together, leveraging the power of technology, and striving tirelessly towards our shared goal of realizing a future where healthcare is accessible, safe, and equitable for all.

Message from Patron, AHPI

I am delighted to extend my heartfelt gratitude to all esteemed guests, speakers, and participants of the AHPI National Conference 2024 themed "India as Vishwa Guru in Healthcare @2047 - From Vision to Reality."

As I reflect on the AHPI journey that brought us here, memories flood back of our humble beginnings as a small group with just a couple of hospitals. Today, with a widespread presence spanning the nation and 20 active state chapters, we stand as a prominent voice representing healthcare organizations across the country.

Our continuous engagement with the government and stakeholders has significantly influenced the quality of healthcare in our nation, positively impacting the well-being of every individual. While acknowledging the distance yet to be covered, I am filled with a profound sense of pride for the milestones we have achieved together.

The conference, themed around envisioning India as a global healthcare leader by 2047, encapsulates our collective aspirations and the transformative potential of the healthcare sector. This successful conclave unveiled a plethora of innovative ideas, highlighting the necessity for collaborative efforts across various sectors to uplift India's healthcare landscape. The prevailing spirit of unity and solidarity among participants underscored our shared objective of enhancing well-being and advancing humanity. The dedication exhibited by all, from visionary leaders to frontline healthcare workers, is truly inspiring. Despite the challenges that lie ahead, I am optimistic that through perseverance and innovation, we will realize our common vision.

It is a privilege to be part of this commemorative souvenir, symbolizing our progress and instilling hope for the future. Let us persist in our pursuit of excellence and continue working tirelessly towards establishing India as a true Vishwa Guru in Healthcare. My heartfelt appreciation to everyone who contributed to the success of this remarkable event. Together, we are paving the way for a brighter, healthier future for all.

Warm regards,

Dr. Alexander Thomas

President, AHPI

Message from President, AHPI

On behalf of AHPI team, I would like to express my sincere appreciation and congratulations to each and every one of you for the remarkable success of the 11th Annual AHPI Global Conclave. The theme of this year's conclave, "India as Vishwa Guru in Healthcare at 2047, from Vision to Reality," exquisitely encompassed an inspiring vision of India's pivotal role in revolutionizing the global healthcare landscape.

As we reflect on this incredible achievement, it is crucial to acknowledge the importance of commemorating this significant event with a souvenir that encapsulates the essence of the conclave's profound impact. A memento serves as a lasting reminder of the knowledge shared, connections made, and transformative ideas exchanged during this momentous occasion.

The souvenir should strive to capture the spirit of innovation, collaboration, and progress that characterized the conclave. It should honor the cultural diversity and rich heritage of India, while also embodying the cutting-edge advancements and modernization embraced by the healthcare industry.

Your dedication and creativity will play a pivotal role in the success of this endeavor. Together, let us create a souvenir that will stand the test of time and remind us of the incredible progress made towards the realization of India's vision as a Vishwa Guru in healthcare.

Once again, congratulations on the resounding success of the conclave, and thank you in advance for your valuable contribution to the creation of the souvenir.

Warm regards,

Dr. Bhabatosh Biswas
President,
AHPI

Dr. Girdhar J. Gyani
Director General, AHPI

Message from Director General, AHPI

Association of Healthcare Providers (India) has completed 11-years of distinguish service for wellbeing of community at large. AHPI, though is primarily an advocacy body for healthcare providers, but while doing that job, wellbeing of community has always been upper most in our mind. All the time, AHPI has focussed on how India with huge population can come out stronger to provide affordable healthcare to society in general and underprivileged in particular. PMJAY, slowly and surely is making inroads in covering under-privileged population of our country. There are challenges in reaching out to eligible beneficiaries due to difficult terrain and in some cases lack of awareness. Once we are able to cover all those 500-million eligible population, and with other schemes like CGHS, ECHS, ESI, India will be close to be covering more than 60% of population. Adding those availing private insurance and employer insurance, India can touch close to 70% of population under some or other insurance and that will truly be great achievement by developing country like India.

While we have all the time being talking about affordability, AHPI recently undertook survey to under-stand issue related to accessibility and availability of healthcare services. It was realised that affordability would have relevance only when healthcare services were at first place available and accessible. Our study based on primary and secondary data available revealed that India has only less than 1.5 beds per 1000 population as against WHO norm of 3.5 beds per 1000 population. Further it was found that there exists huge disparity from state to state. For example, Karnataka has 4.2 beds per 1000 population, the Bihar on other hand has only 0.3 beds per 1000 population. AHPI has submitted complete report on this aspect to government of India as that should decide future course of policy intervention. Within the state similarly there is huge variation. For example, in the state of Tamil Nadu, the 50% of 100+ bedded hospitals are in two cities of Chennai and Coimbatore. Likewise, out of 125, 100+ bedded hospitals in Telangana, more than 100 such hospitals are in twin city of Hyderabad and Secundrabad.

Other important outcome of our study is that more than 85% of tertiary care beds are with private sector. It is incumbent that private and public sector work in tandem to make available the tertiary care to population in general and those covered under government schemes like PMJAY, CGHS etc. There exists formal arrangement that government empanel the private hospitals to make available the healthcare and in turn it makes reimbursement to the private hospitals. In principle it looks good model, except that government has not been able to arrive the rates of reimbursement on scientific basis. This deters most of tertiary and quaternity care hospitals in coming forward for empanelment and which again worsen the availability and accessibility of care. Government needs to assign task of costing of medical procedures to an authorised agency like Institute of cost accountant of India by which more hospitals will come forward for empanelment. Besides it will have big impact on financial sustainability of private sector and that will also attract more investment in healthcare in general and in deficient areas like tier-III cities in particular. AHPI has also submitted report to government on incentivising the private sector in setting up of 100-bedded tertiary care hospitals in tertiary care cities as that only will make healthcare available, accessible and affordable.

Warm regards,
Dr. Girdhar J. Gyani
Director General,
AHPI

Mr. Neeraj Lal
Organising Chairman, AHPI Global Conclave 2024

Message from Organizing Chairperson

I feel extremely honoured to have had the opportunity to organize the AHPI conference for the first time in Gujarat.

Healthcare landscape in India is ever evolving. At this critical point where things are changing at a fast pace, AHPI provides a focussed platform where the best minds from the industry come together, exchange best practices, thoughts and ideas, eventually forging the way forward to steer this dynamic industry in the right direction. It has been an honour to be the mediator for this cause.

I extend my sincere thanks to all the speakers who managed to grace the event and shared thought-provoking ideas.

Warm Regards,

Neeraj Lal
Organizing Chairperson,
AHPI Global Conclave 2024

About AHPI

Our Aim

The Association of Healthcare Providers - India (AHPI) is a registered not-for-profit organisation representing the vast majority of healthcare providers in India. AHPI actively promotes universal health coverage by improving the availability, accessibility, affordability, and quality of healthcare services. AHPI collaborates with stakeholders to establish a national system that ensures universal access to basic health services, supporting its members and partner organisations in implementing effective healthcare improvements. AHPI engages with various associations, accrediting bodies, regulatory agencies, research organisations, and academic institutions to address healthcare challenges. Through their 20 regional chapters, AHPI advocates for healthcare reforms, infrastructure development, taxation and tariff issues, health insurance matters, and other challenges faced by healthcare organisations and the community in delivering quality healthcare. The Association of Healthcare Providers (India)'s vision is to have healthy India, encompassing society, community and common man at grass root.

AHPI's comprehensive approach contributes to the advancement of healthcare in India by addressing key issues, developing standards, providing training and fostering collaboration. AHPI plays a vital role in promoting quality healthcare delivery and facilitating positive change in the healthcare sector.

Misison

The Association of Healthcare Providers (India)'s vision is to have healthy India, encompassing society, community and common man at grass root.

Vision

AHPI shall work with all stake holders in establishing a national system where common man can avail assured universal access to basic health services. The Federation will facilitate its members and partnering bodies, in carrying out healthcare improvements to serve the community effectively and efficiently.

Our Objectives

AHPI strives to fulfil objectives of the International Convent on Economic, Social and Cultural Rights, to which India has acceded and by which society and community has right to health in terms of availability (quantity to meet needs), accessibility (non-discriminatory and affordable), acceptability (ethical) and quality (clinically sound).

AHPI, as conglomeration of entire healthcare providers i.e. hospitals/nursing homes/clinics, diagnostic centres, medical equipment companies, insurance providers and all others that are accountable to the community, will work closely with the key stake holders i.e. the Government and the Society to realise the universal health coverage.

AHPI to collaborate and partner with other associations, accrediting bodies, regulatory agencies, councils, research institutions, academic institutions and solicit their support to realise the vision and mission as above.

AHPI to actively work with the government, policy making institutions, various commissions and committees on proposed legislations/regulations and other reforms, which can enable healthcare providers to deliver affordable healthcare services.

AHPI to promote and recognise the highest professional and ethical standards, healthcare service delivery, innovative medical technology and applied research for the betterment of patient safety and community Well Being.

ELECTRICAL SAFETY IN MEDICAL LOCATIONS

IN COMPLIANCE TO LATEST INTERNATIONAL PRACTICES

STOP FIRE! STOP FAILURE!
RELIABLE DIAGNOSTICS

What we do!

- Understand the installation and identification of the risk,
  - A. Inspection of all 18 safety measures recommended in NEC 2023.
  - B. Testing of all 11 safety measures recommended in NEC 2023.
  - C. Inspection of Bio medical installation in compliance with IS 13450 / IEC 60601.
- Preparation and implementation of Improvement plan.
- Training of Hospital employees for safety audits and testing.

Thermography & Earth Electrode Testing are not recognized in NEC 2023 as a Safety measure.

WRONG

Safety Challenges in Medical Locations

- Patients connected to lifesaving equipment require a continuous power supply.
- Parts of biomedical equipment bypassing the skin, even a small shock can be fatal.
- People / Patients in WET Locations experiences shock even without a fault.
- Faulty electrical appliances in the presence of alcoholic substances and oxygen enrich regions post a high danger.
- Sensitive and expensive biomedical equipment fail without proper safety measures.

Policy & Advocacy

AHPI - CGHS

AHPI continues to lobby on behalf of all the hospitals with the Government regards to the inordinate delay in the reimbursement to hospitals and the low rates for reimbursement which have not been revised since 2014. As a result of the concerted efforts we have been able to get the rates revised for OPD fees, cardiology & surgical procedures . AHPI will follow up with CGHS as they work in the process of revising other specialty rates. AHPI through its intervention was able to get an extension of the validity period of already empaneled hospitals.

With the Union Secretary, Health & Family Welfare

ASSOCIATION OF HEALTHCARE PROVIDERS - INDIA

Educating & Advocating for Well Being of Common Man

26.06.2023

To,
Shri. Rajesh Bhushan IAS
Secretary
Ministry of Health and Family Welfare, Govt

Dear Sir,

Subject: Revision of CGHS package rates

We would like to express our gratitude for taking the time to meet with us. We appreciate your willingness to accept our invitation and join us as a guest of honor on the virtual document release on 7th July, details of which will be sent shortly.

We also wanted to thank you for the recent increase in rates in some areas (OP/IP/ ICU and for some of the radiology investigations) of CGHS. This will certainly help hospitals in financial sustenance and providing quality healthcare to the beneficiaries.

As we discussed during our meeting, we are eagerly awaiting revision in lab rates, remaining radiology investigation rates, and more importantly in the **crucial package rates, which have not been revised since 2014.** We believe that these revisions will be crucial in sustaining healthcare providers and would encourage more hospitals to opt for CGHS and other government insurance schemes.

Thank you once again for your time and attention to these important matters.

Warm regards,

Dr. Alexander Thomas

Letter to Union Health Secretary regarding the revision of Rates

ASSOCIATION OF HEALTHCARE PROVIDERS (INDIA)

Educating & Advocating for Well Being of Common Man

To,
Dr Sushma Jain,
Additional Director
DGEHS
Govt of NCT of Delhi

22nd May 2023

Sub: Revision of DGEHS rates as per the CGHS

Dear Dr Jain,

Greetings from Association of Healthcare Providers (India)-(AHPI), which represents the vast majority of private hospitals in our country including Delhi NCR.

Madam as you may be aware, the private healthcare organizations of Delhi NCR have been actively participating in the State Governmental healthcare welfare schemes as a part of their social responsibility towards the public at large despite the challenging commercials. It is to be noted that CGHS rates are followed by DGEHS and many other government schemes (ESIS, ECHS etc), public sector companies and the insurance industry.

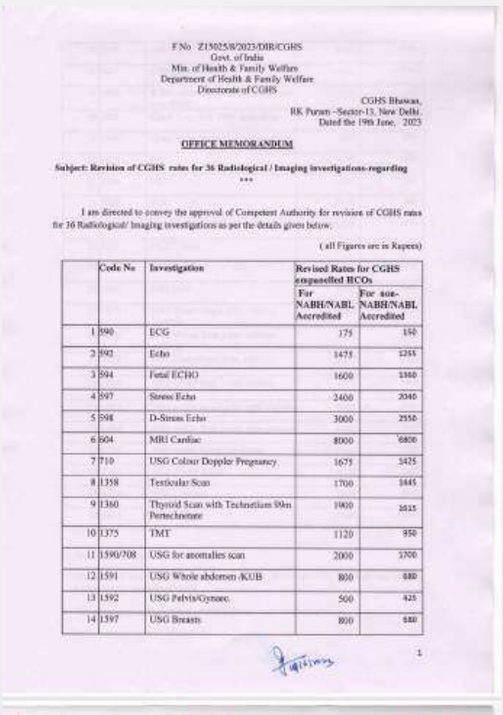

CGHS has recently revised the rates of consultation and room rents under the scheme after a gap of nearly 12 years (After 2011) vide CGHS OM 12.04.2023.
Since DGEHS also follows the CGHS scheme, adopts and offer the current package rates of CGHS, it is requested to approve and issue the necessary directives regarding the new rates as incorporated by CGHS.

With Kind Regards,

Dr GIRDHAR J GYANI
Director General

Office Memorandum - Increment in OPD fees and charges on the CGHS package rates

AHPI – National Medical Commission (NMC)

AHPI continues to work and give suggestions to the National Medical Commission especially for the medical reforms in the Country. AHPI commented on NMC's professional conduct regulations and gave suggestions towards CBME regulations 2023, main focus by AHPI in CBME were on climate change, ethics and communication in Healthcare to be implemented.

Suggestions considered

- Maintaining National & State Medical registry was implemented by NMC.
- NMC Puts Professional Conduct Regulations 2023 on hold that make it mandatory for doctors to prescribe generic drugs and bar them from endorsing any drug brands.

AHPI is thankful to NMC for implementing a long overdue suggestion

With Chairman, NMC

ASSOCIATION OF HEALTHCARE PROVIDERS - INDIA
Educating & Advocating for Well Being of Common Man

To,
Dr. Suresh Chandra Sharma
Chairman,
National Medical Commission

Dear Sir,

Subject: AHPI's Comments on Draft CBME Regulations, 2023

We would like to extending warmest congratulations to you on the recent transitive steps taken in medical education reform. The changes and flexibility in the curriculum and the removal of inspector raj policies are commendable and have been received positively by the healthcare community.

The inclusion of subjects such as law and ethics, technology, and lifestyle medicine will undoubtedly enhance the quality of education provided to budding doctors. We appreciate your efforts in recognizing the importance of these subjects.

We would like to request that you consider including health and climate change in the curriculum as well. In recent years, climate change has emerged as a significant threat to public health, and doctors must be equipped to handle the challenges arising from it.

Additionally, considering the large footprint in the senior citizen population, we urge you to consider including geriatrics in both undergraduate and postgraduate course curriculums. This will ensure that doctors are trained to provide specialized care to senior citizens and improve their quality of life.

Once again, we congratulate you on the positive steps taken towards medical education reform and look forward to further improvements in the healthcare sector.

Warm regards,

Dr. Alexander Thomas

AHPI – Quality Council of India [QCI]

AHPI since its inception have been working with QCI relentlessly to maintain the highest standards of healthcare quality, safety, and accessibility, extending to every corner of the country. Recently AHPI has been appointed as the Chair of the Technical Committee, an initiative for grading of Hospitals from QCI. At the AHPI Global Conclave 2024, Chairman, QCI was the guest of honor and addressed the delegates, post that QCI announced a unique landmark collaboration between QCI and AHPI, that focuses on raising awareness and conducting capacity-building initiatives to enhance healthcare quality in India. Pilot will commence in the State of Gujarat.

Meetings of the Committee at Delhi

AHPI – END TB Initiative

AHPI joints with USAID, Corporate TB Pledge, The UNION to launch System for TB Elimination in Private Sector [STEPS] for the healthcare sector in India. AHPI and its member hospitals supports Government towards its mission to eradicate TB from India in the coming years.

Webinar conducted for hospitals by AHPI for this Initiative

AHPI - Relief Committee

AHPI formed a committee for the relief in the State of Manipur. AHPI member Hospitals came forward and lot of support were given to the common man.

Meeting with member Hospitals from North East

AHPI – GIPSA

Meeting regarding GIPSA (General Insurance Public Sector Association) issues faced by hospitals in Delhi NCT taken up by AHPI.

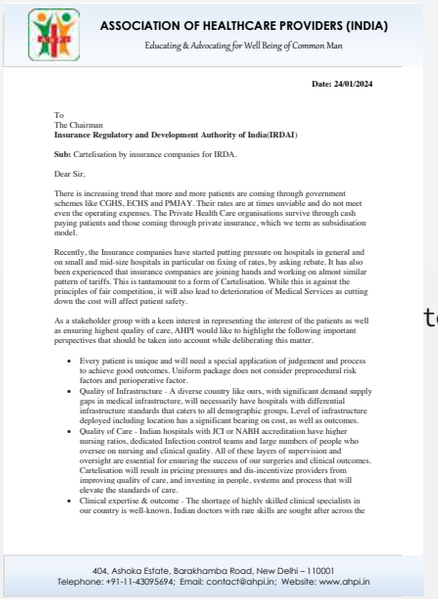

Meeting with legal advisor and member Hospitals from Delhi NCT

AHPI - IRDAI

One of the recent achievements of AHPI is the involvement with IRDAI in ensuring that health insurance coverage is available to individuals of all age groups. Previously, there were limitations on the maximum age at which individuals could obtain health insurance coverage, which often left older adults without the financial protection they needed for their medical expenses. However, through the efforts of AHPI being members of Health Insurance Consultative Committee (HICC) established by IRDAI, regulations have been implemented to eliminate age gaps in health insurance coverage.

The HICC including renowned healthcare professionals such as Dr. Alex Thomas and Dr. Devi Shetty, who are patrons of AHPI, submitted recommendations to IRDAI regarding this matter, which have now been implemented as regulations. This development marks a significant step forward in ensuring that individuals of all age groups have access health insurance, providing them with the necessary financial support for their medical needs.

Date: 24/01/2024

To
The Chairman
Insurance Regulatory and Development Authority of India(IRDAI)

Sub: Cartelisation by insurance companies for IRDA.

Dear Sir,

There is increasing trend that more and more patients are coming through government schemes like CGHS, ECHS and PMJAY. Their rates are at times unviable and do not meet even the operating expenses. The Private Health Care organisations survive through cash paying patients and those coming through private insurance, which we term as subsidisation model.

Recently, the Insurance companies have started putting pressure on hospitals in general and on small and mid-size hospitals in particular on fixing of rates, by asking rebate. It has also been experienced that insurance companies are joining hands and working on almost similar pattern of tariffs. This is tantamount to a form of Cartelisation. While this is against the principles of fair competition, it will also lead to deterioration of Medical Services as cutting down the cost will affect patient safety.

As a stakeholder group with a keen interest in representing the interest of the patients as well as ensuring highest quality of care, AHPI would like to highlight the following important perspectives that should be taken into account while deliberating this matter.

- Every patient is unique and will need a special application of judgement and process to achieve good outcomes. Uniform package does not consider preprocedural risk factors and perioperative factor.
- Quality of Infrastructure - A diverse country like ours, with significant demand supply gaps in medical infrastructure, will necessarily have hospitals with differential infrastructure standards that caters to all demographic groups. Level of infrastructure deployed including location has a significant bearing on cost, as well as outcomes.
- Quality of Care - Indian hospitals with JCI or NABH accreditation have higher nursing ratios, dedicated Infection control teams and large numbers of people who oversee on nursing and clinical quality. All of these layers of supervision and oversight are essential for ensuring the success of our surgeries and clinical outcomes. Cartelisation will result in pricing pressures and dis-incentivize providers from improving quality of care, and investing in people, systems and process that will elevate the standards of care.
- Clinical expertise & outcome - The shortage of highly skilled clinical specialists in our country is well-known. Indian doctors with rare skills are sought after across the

To,
Shri. Debasish Panda
Chairman,
Insurance Regulatory and Development Authority of India

Dear Sir,

Subject: Appreciation for Advancing Healthcare Insurance in India

On behalf of the Association of Healthcare Providers (India), we wish to express our deep appreciation for the recent decision to eliminate the age caps on healthcare insurance policies.

This progressive action by the IRDAI is a crucial advancement towards ensuring comprehensive healthcare coverage for older adults in our country.

We urge the IRDAI to consider implementing additional recommendations proposed by the three sub-committees of the HICC.

These recommendations are designed to enhance the accessibility and affordability of healthcare insurance for all citizens, promoting increased insurance penetration.

Furthermore, they aim to facilitate quality healthcare delivery and ensure the sustainability of healthcare expenditure through transparent and scientific costing methods.

We are confident that the adoption of these recommendations will significantly enhance the insurance landscape in our nation, ultimately benefiting the well-being of our citizens.

We eagerly anticipate witnessing further progressive reforms in the insurance sector under the guidance of the IRDAI. We commend the IRDAI for its continuous efforts in fostering a more inclusive and efficient healthcare insurance system in India.

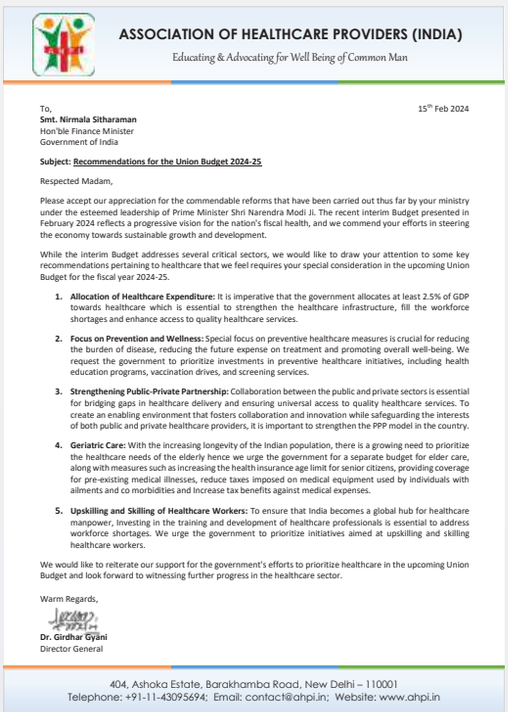

Warm regards,

Dr. Devi Shetty, Patron, AHPI | Dr. Girdhar J Gyani, Director General, AHPI | Dr. Alexander Thomas, Patron, AHPI | Dr. Shahzaad Biswas, President, AHPI

AHPI - Budget 2024-2025

ASSOCIATION OF HEALTHCARE PROVIDERS (INDIA)

Educating & Advocating for Well Being of Common Man

To,
Smt. Nirmala Sitharaman
Hon'ble Finance Minister
Government of India

15th Feb 2024

Subject: Recommendations for the Union Budget 2024-25

Respected Madam,

Please accept our appreciation for the commendable reforms that have been carried out thus far by your ministry under the esteemed leadership of Prime Minister Shri Narendra Modi Ji. The recent interim Budget presented in February 2024 reflects a progressive vision for the nation's fiscal health, and we commend your efforts in steering the economy towards sustainable growth and development.

While the interim Budget addresses several critical sectors, we would like to draw your attention to some key recommendations pertaining to healthcare that we feel requires your special consideration in the upcoming Union Budget for the fiscal year 2024-25.

1. **Allocation of Healthcare Expenditure:** It is imperative that the government allocates at least 2.5% of GDP towards healthcare which is essential to strengthen the healthcare infrastructure, fill the workforce shortages and enhance access to quality healthcare services.
2. **Focus on Prevention and Wellness:** Special focus on preventive healthcare measures is crucial for reducing the burden of disease, reducing the future expense on treatment and promoting overall well-being. We request the government to prioritize investments in preventive healthcare initiatives, including health education programs, vaccination drives, and screening services.
3. **Strengthening Public-Private Partnership:** Collaboration between the public and private sectors is essential for bridging gaps in healthcare delivery and ensuring universal access to quality healthcare services. To create an enabling environment that fosters collaboration and innovation while safeguarding the interests of both public and private healthcare providers, it is important to strengthen the PPP model in the country.
4. **Geriatric Care:** With the increasing longevity of the Indian population, there is a growing need to prioritize the healthcare needs of the elderly hence we urge the government for a separate budget for elder care, along with measures such as increasing the health insurance age limit for senior citizens, providing coverage for pre-existing medical illnesses, reduce taxes imposed on medical equipment used by individuals with ailments and co morbidities and Increase tax benefits against medical expenses.
5. **Upskilling and Skilling of Healthcare Workers:** To ensure that India becomes a global hub for healthcare manpower, Investing in the training and development of healthcare professionals is essential to address workforce shortages. We urge the government to prioritize initiatives aimed at upskilling and skilling healthcare workers.

We would like to reiterate our support for the government's efforts to prioritize healthcare in the upcoming Union Budget and look forward to witnessing further progress in the healthcare sector.

Warm Regards,

Dr. Girdhar Gyani
Director General

AHPI – QR Code on Medicines

Inshorts

QR code on top 300 medicines to ensure they are not fake from today

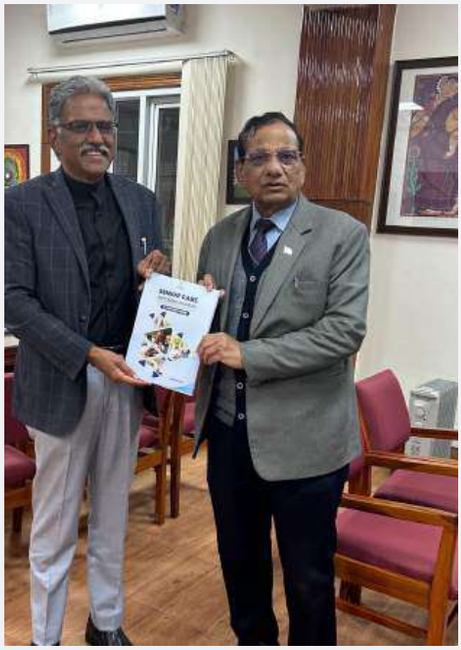

A QR code has been made mandatory for 300 widely-used drug brands produced from August 1, 2023. Scanning the QR code will provide vital information such as manufacturing licence and batch number to help buyers ensure that the medicines they're buying aren't fake. Medicine brands such as Dolo, Allegra, Asthalin, Saridon, Limsey and Calpol will reportedly carry the code.

To,
Shri. Mansukh L Mandaviya
Hon'ble Minister
Ministry of Health & Family Welfare [MoHFW]
Government of India

Respected Sir:

Subject: Subsidy for stipends to the residents

Greetings from the Association of Healthcare Providers - India (AHPI)

We are writing to you on behalf of the private healthcare providers in the country. In order to make healthcare available and accessible in general and in Tier-II, cities as well for the rural areas like in Community Health Centers, we need Post Graduate specialists. We are keen to work with the government to increase the number of postgraduate seats through the national board of examinations. However, the current stipend provided to the students limits their ability to participate in this process. We believe that the stipend should be reasonable so that more students can afford to pursue postgraduate studies through NBE.

Earlier, we had discussions with the ministry regarding providing a subsidy towards the stipend to the residents. We urge you to reconsider the government subsidy on stipends for DNB residents. This will enable private healthcare providers to train more residents and make healthcare available & accessible in deficient regions and communities at large.

We believe that this initiative would be beneficial to the healthcare sector in the country. It would help increase the number of trained healthcare professionals, improve the quality of care, and reduce the burden on public hospitals.

Thank you for your attention to this matter. We look forward to working with you to improve healthcare in the country.

Warm regards,

Violence against Healthcare Professionals

ASSOCIATION OF HEALTHCARE PROVIDERS (INDIA)

Educating & Advocating for Well Being of Common Man

To,
Shri PINARAYI VIJAYAN
Hon'ble Chief Minister
KERALA

11th May 2023

Respected PINARAYI VIJAYAN,

Greetings from Association of Healthcare Providers (India) which represent vast majority of hospitals in our country. Dr MI SAHADULLA, Chairman KIMS is President for KERALA chapter.

We are writing about the sad murder of Dr Vandana Das, a young medical Doctor and House surgeon who was stabbed to death at Tiroor Hospital Kottarakara by a man escorted by Police and went to the hospital for dressing some injuries in the leg.

The entire medical fraternity of India in general and Kerala in particular is shocked, anguished and angered at this tragedy. We have been raising the issue about violence against the doctors but hardly any proactive steps have been taken by the government at central as well as state level governments. *We are heading to introduce 1 year training to doctors in Marshal Arts after they complete MBBS"*

These kinds of attacks are increasing in Kerala and now even took away the life of a doctor, the only daughter of the family.

AHPI jointly with IMA and other medical associations of the state express our protest in such incidents and demand the Government to frame rules and regulations for preventing violence against doctors without further delay.

We strongly demand such accused should not be sent to the doctors without handcuffs/ restrains.

We also strongly urge and request you to grant compensation of highest possible denomination as appropriate to her parents.

With kind regards

Dr GIRDHAR J GYANI
Director General-(AHPI

Letter to Chief Minister of Kerala regarding the recent incident on violence against medical professionals

AHPI - Commission for Air Quality Management

AHPI writes to Commission for Air Quality Management for the issues related to retrofitting device and dual fuel kit in DG sets in hospitals and diagnostic centres.

ASSOCIATION OF HEALTHCARE PROVIDERS (INDIA)

Educating & Advocating for Well Being of Common Man

August 10, 2023

To
Shri Arvind Nautiyal
Member Secretary
Commission for Air Quality Management in National Capital Region and Adjoining Areas

Sub: Issues related to Retrofitting device and dual fuel kit in DG Sets in Hospitals & Diagnostic Centres.

Dear Sir,
Greetings from The Association of Healthcare Providers (India)
We are the representative association of majority of private hospitals in the country including Hospitals of Delhi NCR.
Sir, we write this letter to bring into your notice the directive being imposed on the healthcare organisations which will be financially and operationally unviable, hence we request your intervention for further review in the subject matter.
As per latest directives of Commission for Air Quality Management, NCT of Delhi, issued in respect of different capacity of DG sets in NCR and surrounding States. The salient points are mentioned below:-

1. There is no requirement / restriction on DG sets of all capacities running on LPG / Natural Gas/ Biogas/ Propane / Butane.
2. DG sets of 19 kW to less than 125 kW – only dual fuel mode is required. Its use is restricted to only for 2 hours per day during GRAP period.
3. DG sets of 125 kW to less than 800 kW are required to have Dual fuelkit and Retro-fitted ECDs through certified vendors / agencies
4. DG sets of 800 kW and above are required to have Dual fuel mode and any other ECDs. During GRAP period, its usage is restricted to 2 hours per day.
5. **New** DG sets of all capacities up to 800 kW procured as per standards mentioned MoEFCC notification number G-15017/05/2012-CPW and GSR 804(E) dated 02.11.2022.

The above orders need to be implemented latest by 30/09/2023, otherwise DG sets can't be used.

Implications of the above orders for Healthcare Facilities in Delhi NCR

1. Cost of installation of RECD varies from 2,000 – 3,000 rupee per KVA excluding the cost of installation, freight and GST.
2. Cost of installation of dual fuel varies from 1,250 – 2,200 rupee per KVA excluding the cost of installation, freight and GST.
3. In cases where we need to install both, the cost varies between Rs 3,250 – Rs 5,200 per KVA depending on the size of DG Sets. Per KVA rate of a small capacity DG set is higher than the rate for larger DG sets. Financially, this translates into :
   a. 125 KVA DG set installations cost will be approximately 6,50,000/- + GST + installation + freight cost. Which will be additional approx. 30-35% i.e. 2,25,000/- All healthcare facilities require at least 2 DG sets as backup in, case of failure of one DG set. So the total cost of a small DG set required by a small hospital/nursing home will need an investment of 12-18 lakhs.

Letter from AHPI to the Member Secretary, Commission for Air Quality Management

AHPI – NHA

AHPI works with NHA very closely in various initiatives for the healthcare in the Country. AHPI recently attended a meeting with Ms. Deepti Kaur Mukherjee, the CEO of NHA. One of the key areas of focus was the strengthening of the Ayushman Bharat Digital Mission (ABDM). and the Central Government Health Scheme (CGHS). AHPI is a Member of the Quality Steering Committee constituted by NHA – MOHFW. AHPI supported NHA in hosting Webinar on Overview & Understanding Digital Health Incentive Scheme [DHIS] with National Health Authority [NHA] which was attended by more than 600 AHPI member hospitals.

S-12015/05/2019-NHA(HNW&QA)
Government of India
Ministry of Health and Family Welfare
National Health Authority

Date:1st May 2023

OFFICE MEMORANDUM

Sub.: Constitution of 'Quality Steering Committee' for designing, development, implementation of quality improvement initiative and monitoring the quality care of services at all empaneled hospitals under AB-PMJAY.

The goal of Ayushman Bharat Pradhan Mantri Yojna (AB PM-JAY) is to improve access to quality healthcare at affordable prices, strengthen the health insurance ecosystem and encourage quality culture among the care providers. Quality is the core and most important aspect of service being rendered at any healthcare facility.

With the introduction of new quality initiatives under AB PMJAY, National Health Authority (NHA) has reconstituted the 'Quality Steering Committee' with the following members;

Members	Organization	Designation
Dr. Pankaj Kumar Arora, Director	National Health Authority	Chairperson
Vipin Kumar Singh, Director	National Health Authority	Member Secretary
Ministry of Health & Family Welfare representative as appointed	Ministry of Health and Family Welfare	Member
Advisor Quality and Patient Safety, NHSRC	Ministry of Health and Family Welfare	Member
Head, Medical	Bureau of Indian Standards	Member
Representative, Quality Council of India	Quality Council of India	Member
Representative, National Accreditation Board for Hospitals and Healthcare Provides	National Accreditation Board for Hospitals and Healthcare Provides	Member
Representative as appointed	Association of Healthcare Providers India	Member
HOD, Hospital Administration	All India Institute of Medical Science	Member

The Term of Reference (ToR) for the aforesaid committee shall be as under:

a. Act as the advisory committee for NHA, quality vertical.
b. Provide guidance in developing online IT based process flow in PM JAY IT platform.
c. Provide guidance in developing online IT based process floe in PM JAY IT platform.
d. The committee can recommend constitution of working group(s) for specific requirements of the initiative.
e. Provide guidance to working group for identifying the best practices and standards in context of ongoing quality initiatives in the country.
f. Committee will provide guidance and support to other verticals at NHA for facilitating trainings and capacity building activities at National and State Level.
g. Guidance and supervision of quality-based assessment activities at national and state level

This is issued with approval of the competent authority.

AHPI - IMA

AHPI works closely with the Indian Medical Association (IMA), particularly focusing on the Prevention of Violence Against Healthcare Workers. Together, they hosted a Healthcare Summit addressing this issue and published a book on the subject. AHPI's role involves advisory support in a costing exercise planned by IMA and ICWAI. Furthermore, there are ongoing efforts to implement state-wide initiatives aimed at raising awareness among professionals regarding the prevention of violence against healthcare workers.

AHPI & IMA Leadership

AHPI - Vayah Vikas

AHPI, as the inaugural founding member of Vayah Vikas, a non-profit organization guided by the ethos of "by seniors, for seniors, of seniors," prioritizes empowering older adults to take control of their health, well-being, and involvement in meaningful activities, enabling them to construct lives of dignity. Additionally, AHPI arranged a concave for older adults, published a book, and prepared a whitepaper with suggestions that were submitted to the Government for consideration.

Academics & Training

AHPI - PMKVY

Association of Healthcare Providers India (AHPI) extended its support to the National Skill Development Corporation (NSDC) in implementing the esteemed Government of India flagship scheme, "Pradhan Mantri Kaushal Vikas Yojana - 4.0" (PMKVY 4.0). This initiative aims to prepare a skilled and trained allied healthcare workforce in collaboration with AHPI member hospitals. Under PMKVY 4.0, AHPI, with the backing of its member hospitals, has been entrusted by NSDC to provide training in two job roles: Healthcare Hygiene & Housekeeping Aide and Geriatric Caregiver during the last Financial Year. The training programs, each lasting approximately 35-40 days, target individuals such as untrained and uncertified GDAs, Nursing Assistants, Housekeeping staff, and Support Staff within hospital ecosystems.

AHPI – Skill Development

Meeting with Mr.Scott Bjerregaard, Dept of Home Affairs, Australia regarding support of fulfilling Australia's requirement for skilled healthcare professionals from India.

AHPI Global Conclave 2024

India as Vishwa Guru in Healthcare @2047

"From Vision to Reality"

2nd & 3rd February 2024 | Hotel Leela, Gandhinagar, Gujarat

The 11th Global Conclave of the Association of Healthcare Providers India (AHPI) was recently held on the 2nd and 3rd of February 2024 at Hotel Leela in Gandhinagar, Gujarat. With over 400 delegates attending from all over the country, the conclave served as a platform for healthcare professionals to come together and discuss the future of healthcare in India.

The event featured technical sessions delivered by 30 experts in the field, with the support of 12 session chairs and moderators. One of the highlights of the conclavewas the AHPI Awards for Excellence in Healthcare. This year, 86 hospitals were recognized and awarded under various categories, out of the 300 hospitals that had applied. This acknowledgment showcased the remarkable achievements and advancements made by these healthcare institutions in providing quality healthcareservices.

AHPI Awards for Excellence in Healthcare

AHPI held its highly anticipated 10th Awards for Excellence in Healthcare at Gujarat in February 2024, as part of its Annual Global Conclave. This prestigious event attracted participation from around 300 hospitals, all vying for recognition in the eight different categories. Notably, a total of around 85 hospitals from across the country, as well as some international institutions, were honored during this grand occasion.

The distinguished Chief Guest for the event was the Honorable Health Minister of Gujarat, adding a sense of prestige and significance to the ceremonies. Moreover, the gathering of esteemed individuals from the healthcare fraternity, including industry stalwarts, added to the grandeur of the occasion.

The event reached its pinnacle with a grand gala dinner, offering attendees a chance to network and socialize in a delightful atmosphere.

National Health Conclave 2024

Virtual Meeting of the Organizing Committee

IMA Health Summit 2023 supported by AHPI

"Violence Against Hospitals and Healthcare Professions" was the Pivotal Theme for "IMA National Health Summit 2023".

AHPI strongly supported and actively participated in the event. Dr Girdhar Gyani Director General AHPI shared his insight on building a Safety culture in the hospital environment..

Dr Alexander Thomas Patron Advisor AHPI along with Dr Sharad Aggarwal National President IMA, read out the Delhi Declaration and he proposed vote of thanks at the inaugural session.

The event focused on Doctor-Patient Relationship and its Impact on Delivery of Care, and witnessed Participation by Stalwarts from various sectors including healthcare, Industry Associations like NATHEALTH, CAHO & ANBAI.

AHPI Leadership Summit

1st AHPI Leadership Summit was held on 14th October, 2023 at Delhi supported by Sun Pharma. It was well attended by leading stalwarts representing various sectors of Healthcare industry who deliberated on various impacting healthcare. Dr Girdhar J Gyani, Director General - AHPI, highlighted the challenges faced by healthcare industry and discussed about improving accessibility, affordability and acceptability of health care to achieve Universal Health Coverage.

Dr. Basant Garg, IAS, Addl CEO, NHA highlighted the core building blocks, intended benefits, and initiatives under ABDM for the Health Ecosystem. Some of the prominent leaders who attended the summit were Dr. Raghu Vanshi, MD. Fortis Healthcare, Dr. Harsh Mahajan, Mahajan Imaging, Dr KK Sethi Chairman Delhi Heart and Lung Institute among many others across the Country.

AHPI Leadership Forum

AHPI Leadership Forum shall facilitate creating a value-based healthcare ecosystem and work with all stake-holders through collaboration and exchange of ideas to enhance the experience of members.

The FORUM shall create avenues for collaboration with institutes of eminence, nationally as well as internationally in the field of leadership and help members recognized as leaders par excellence and change makers in supporting and strengthening the delivery of quality health services in the country.

'Strict laws needed to stop youth from consuming tobacco products'

■ 39 per cent of CG's population consumes tobacco products

■ **Staff Reporter**
RAIPUR, May 6

A delegation of IMA and AHPT Chhattisgarh Chapter call on Health Minister T S Singhdeo.

INDIAN Medical Association (IMA) Raipur and Association of Healthcare Providers India (AHPI) Chhattisgarh Chapter have demanded amendment in the COTPA Act 2003 at State-level in Chhattisgarh.

A delegation led by Dr Rakesh Gupta, President, IMA Raipur and AHPI Chhattisgarh, Dr Digvijay Singh, General Secretary, IMA Raipur, Atul Singhania, General Secretary, AHPI Chhattisgarh Chapter, Dr Anil Jain, Treasurer, among others, met the Health Minister of Chhattisgarh, T S Singhdeo and brought some important points pertaining to this to the notice of Health Minister.

The delegation mentioned that according to the Global Adult Tobacco Survey (GATS) 2 of the Government of India, more than 13 lakh people in India die every year due to consumption of tobacco and related products in the country. 39 percent of Chhattisgarh's population is suffering from the adverse effects of tobacco consumption. In our State, 53.7 per cent men and 24.6 per cent women consume tobacco and related products.

According to the Global Youth Tobacco Survey 2019, 8 percent of school children aged 13 to 15 years (average age 7.3 years) in Chhattisgarh are consuming tobacco and related products and 26 percent youth are victims of passive smoking.

The delegation informed the Health Minister that the Government of India's Central Act - Cigarettes and Other Tobacco Products (Prohibition of Advertisement and Regulation of Trade and Commerce, Production, Supply and Distribution) Act, 2003 (COTPA 2003) has been made with the aim of controlling and monitoring tobacco and related products.

However, there are some loopholes in the Act due to which the efforts of the Government to control the use of tobacco are being hampered.

The COTPA 2003 Act allows smoking in certain public

Address: Shija Hospitals, Healthvillage, Langol, Imphal West - 795004, Manipur - India.

Dr. Palin Khundongbam, President
Dr. Vivekananda Ashangbam, Vice President
Dr. James Elangbam, Secretary

17th August, 2023

To
The Hon'ble Chief Minister,
Manipur.

Subject: **Request for an early reimbursement ofthe long pending CMHT and PMJAV bills for the private hospitals in Manipur**

Hon'ble Sir,

Greetings from Association of Healthcare Providers of India (AHPI), Manipur!

Association of Healthcare Providers of India (AHPI) represents the majority of healthcare providers in India. It works as "not for profit" organization and advocates with the government with a vision to have healthy India, encompassing society, community and common man at grass root.AHPI has the mission to work with all stake holders in establishing a national system where, common man can avail assured universal access to basic health services.

Manipur has a chapter of AHPI formed in the beginning of Corona in March 2020 and has 35 private member healthcare establishments. AHPI Manipur Chapter is contributing significantly in the both the diagnostic and therapeutic services in the state and took a major role in the awareness programs during the Corona Pandemic.

Majority of the private hospitals in Manipur are empanelled for the CMHT and PMJAY and serving the population. But the bills for the treatment of the patients in these hospitals have not been reimbursed for the last about 3 months**(35 days only in the MSCU)** due to which we are unable to pay the vendors for medicines and consumables and salaries of the staff to run the hospitals.

We therefore, request your good office to kindly consider the issue we are facing in the present situation of unrest and disburse the pending amount so as to enable us to serve the patients smoothly.

Thanking you.

Faithfully Yours,

Dr. Palin Khundongbam
President, AHPI Manipur

Dr. James Elangbam
Secretary, AHPI Manipur

AFTER OBSERVATION BY APEX COURT...

Private Hospitals Say Standardising Rates will be Catastrophic for Sector

Teena.Thacker
@timesgroup.com

New Delhi: Private hospitals have expressed apprehensions over the intervention of the Supreme Court to curb exorbitant charges. The top court on Tuesday asked the Centre to fix standard rates for different medical procedures.

Executives at private hospitals say that the move will be "catastrophic" for the industry and will affect the quality of healthcare.

The Association of Healthcare Providers (AHPI), which represents medium and small hospitals, has decided to approach the Supreme Court on behalf of the industry.

"This whole business of standardisation is immensely difficult in healthcare simply because of complications in it. The cost structure is different in each hospital as it depends on various factors like the experience of the doctors, facilities in the OT, the kind of infection control policy which is adopted by the hospital, patient safety measures, IT services, etc. Price cannot be standardised for a big hospital and a small clinic," an executive said.

The Supreme Court raised concern over the wide variation in the cost of treatment between government and private healthcare facilities. The court highlighted the stark contrast in prices, asserting that citizens have a fundamental right to healthcare, and the government cannot evade its responsibility in ensuring this right.

"It is unbelievable. The cost depends on so many other factors, even geographies. The input cost is higher in Delhi than in UP. Since the minimum wages are lower in UP, the hospital may choose to pass it on to the patients. But the same cannot be applied in a place like Delhi. If it is standardised, the quality will suffer," said another executive.

AHPI director general Girdhar Gyani said that they will approach the court with their apprehensions.

Gyani has also written to the health ministry recommending to work out costing of various procedures based on established scientific principles and fix rates in the 'range' to address the categorisation of establishments.

Meanwhile, shares of hospital chains saw a sharp slump up to 8% on the BSE. Max Healthcare tumbled 8.6% to a one-month low. Medicare, Apollo Hospitals and Fortis Healthcare fell 2-8% in intra-day trade on BSE.

Why should adults stay up to date with vaccinations?

July 31, 2023, 2:17 PM IST / Dr Girdhar Gyani in Voices, Health, TOI

Dr Girdhar Gyani

Director General, Association of Healthcare Providers India (AHPI)

Vaccination or immunisation is one of the safest and most cost-effective measures to protect people from life-threatening diseases. A vaccine is a biological substance that builds immunity and strengthens the body's defence mechanism against specific diseases. Simply put, vaccination safeguards individuals from

India's journey towards achieving quality in healthcare

The AHPI has Dr Alexander Thomas as the President and Dr Girdhar Gyani as the Director General. In an exclusive interview with Medicos Today, Dr Girdhar Gyani, widely known as the founder of healthcare quality in India, shares his journey in establishing a quality movement in India and his opinions on various health issues. Here are some excerpts from the discussion, Dr Gyani had with the Medicos Today team:

'Quality Healthcare will cost, whereas absence of quality may cost lives of people'.

Insurance firms unfairly rejecting claims: AHPI

PNS ■ NEW DELHI

The insurance companies are "unfairly" rejecting claims by patients and blatantly disregarding guidelines laid down by the Insurance Regulatory and Development Authority of India, thus leaving the insured patients at the receiving end, The Association of Healthcare Providers India (AHPI) has said.

The AHPI which is a collective of hospitals and other healthcare providers has demanded action against such private insurance companies as it accused them of forming an "alarming cartel".

The AHPI contended that private insurance companies are collectively discontinuing cashless facilities provided to hospitals, depriving patients of their right to choose treatment and healthcare providers in an arbitrary manner.

"As claims are denied, individuals find themselves in urgent need of funds to cover mounting medical expenses with escalating costs and mounting losses due to the conduct of these insurance companies, the association said in a statement here.

Dr Girdhar Gyani, Director General of AHPI, said, "The AHPI's efforts to rectify this situation have been met with resistance. Multiple complaints have been filed with IRDAI, but no tangible action has been taken yet. Several members from across the nation have also reported similar harassment by insurance companies, prompting us to take these concerns seriously."

"Consequently, we are now considering legal action and approaching the Competition Commission of India to draw attention to these concerning practices. One particularly distressing case that I came across involved the sudden de-empanelment of one of our member hospitals in Delhi by a well-known insurance company. The insurer insisted on substantial discounts from the

Writers and influencers meet sheds light on medical ethics

DC CORRESPONDENT
CHENNAI:

Founder of Corporate Law Group, Krishna Sarma, urged health writers and influencers to raise awareness on medical ethics among the medical community and the public.

The NHWIC-2024 continues to serve as a vital platform for discourse and education on pressing health issues, reaffirming the importance of ethical principles in ensuring quality and trust in healthcare delivery.

Director of the Association of Healthcare Providers (India) – AHPI, Dr. Sunil Khetarpal underscored the necessity of informed consent, emphasizing its dual role as a legal requirement and moral obligation. Dr. Rajeev Gautam, Corporate Officer of HORIBA, Ltd., Japan, President of HORIBA India, highlighted the transformative potential of innovation and technology in healthcare, urging collaboration across sectors to ensure accessibility and affordability.

Emphasising the importance of these guidelines, Dr. Girish Tyagi, Registrar of Delhi Medical Council and President-Elect of Delhi Medical Association, stressed their role in safeguarding both doctors and patients from malpractice and negligence.

He advocated for the adoption of generic medicines mandated by the NMC, provided they meet stringent quality standards to avoid compromising treatment outcomes.

The NHWIC-2024 has highlighted attention to crucial issues shaping the healthcare sector in India. Hosted by the HEAL Foundation, the session featured esteemed experts

COLUMN

Dr Girdhar Gyani

Mapping Quality Of INDIA'S HEALTHCARE JOURNEY

The most durable and widely cited definition of healthcare quality was formulated by the Institute of Medicine

Over the years, healthcare has continued to be identified with philanthropy and therefore did not use modern tools like TQM, LEAN, and SIX SIGMA. The 21st century has dramatically changed the way healthcare is emerging as a key component of the service sector, with quality taking the front seat.

The most durable and widely cited definition of healthcare quality was formulated by the Institute of Medicine (IOM) in 1990. According to the IOM, "quality consists of the degree to which health services for individuals and populations increase the likelihood of desired health outcomes (quality principles), are consistent with current professional knowledge (professional practitioner skill) and meet the expectations of healthcare users (the marketplace)."

Healthcare Journey in India

The first formal initiative to improve India's health system came when the BHORE committee was constituted in 1943 to assess healthcare needs and make recommendations for their development. The committee's recommendations submitted in 1946 did have a significant influence on shaping the healthcare policies in India after independence in 1947. It strongly suggests investing in public health systems.

However, because of other priorities like housing, roads, power, water, infrastructure, and healthcare, the requisite finances could not be allotted. This paved the way for the private sector to pitch in, and the first initiative came through Apollo Group in 1983, founded by Dr Prathap Reddy.

This opened the door for other corporate groups to invest in the health system to the extent that the private sector has become the leading provider, with a 70 per cent share in general and an 85 per cent share in critical or tertiary care. In terms of investment, the private sector has contributed more than 3 per cent of GDP, compared to less than 2 per cent by government.

DR GIRDHAR GYANI

India's Healthcare Quality Journey

At the beginning of the 21st century, India has a sizable presence in the private sector, including some hospitals setting up state-of-the-art facilities. This attracted the attention of overseas patients.

Looking at the increasing inflow of overseas patients and their queries about accreditation, resulted in a question raised in India's Parliament in March 2005, which was referred to the Ministry of Health and Family Welfare (MOHFW).

By this time, MOHFW was getting services from the Quality Council of India to get the hospitals assessed for empanelment in the Central Government Health Scheme (CGHS). QCI was using accredited certification bodies for ISO 9000 by its accreditation board, i.e., the National Accreditation Board for Certification Bodies (NABCB).

India's Healthcare Accreditation Programme

First and foremost, the requirement for any accreditation was to draft an accreditation standard and get it approved by the requisite accreditation agency, in this case, ISQua. A technical committee was constituted by the Secretary-General, with Lt Col (Dr) Pawan Kapoor as Chair and Dr Murali Srinivas as Co-chair.

The first meeting was held on June 27, 2005, and that marked the beginning of India's healthcare accreditation journey. The committee was made up of five eminent doctors and one standard-writing expert. The committee came up with the final draft in December 2005, which got approved by the NABH Board in January 2006.

> The first formal initiative to improve India's health system came when the Bhore committee was constituted in 1943 to assess healthcare needs

The standard was formally launched in February 2006, followed by a series of sensitization programmes to spread awareness among hospitals. Concurrently, about 100 assessors among clinicians, nursing staff, and hospital administrators were identified and trained.

NABH's Impact on Public Health

Quality, by its very nature, thrives in an open and competitive market. Payers and regulatory agencies can also drive demand for quality. None of these factors apply to public-sector hospitals. The launch of NABH in February 2006, as such, was seen as a quality initiative for private and corporate sector hospitals. But going by the fact that quality in healthcare is also aimed at improving patient safety, it applies across all sectors.

One of the prominent children's hospitals, CNBC became the first government hospital, based out of Delhi, to receive full accreditation by NABH during 2009-10. This prompted a few other state governments, including MP, AP, Assam, Karnataka, and J&K, to sign an MOU with QCI for the implementation of the NABH standard in their district hospitals. NABH, during 2010-11, achieved the milestone of accrediting 100 hospitals. NABH progressively launched accreditation for AYUSH hospitals, dental clinics, radiology centers, and eye hospitals.

NABH International

NABH got a big boost as it received an invitation from the Philippines to launch accreditation there. The Memorandum of Understanding was signed in 2010-11. Simultaneously, Iran came forward and signed the MOU. There was interest shown by the UAE.

NABH launched its international wing as NABH-International, or, in short, NABH-I. In 2011, NABH got an invitation from Pakistan to conduct an awareness programme for doctors on NABH accreditation. A team comprising of Dr Girdhar Gyani, CEO-NABH, Dr Zairab Zaidi, Dydirector NABH and Dr Sanjeev Singh, senior assessor of NABH, visited Karachi and trained about 80 doctors on NABH standards.

'Insurance firm can't decide on medical expenses limit'

Company Directed To Pay ₹1.64L For Cataract Surgery

Tushar.Tere@timesgroup.com

Vadodara: In an important verdict, a consumer forum in Vadodara recently ruled that insurance firms can't decide which expense isn't necessary for medical treatment and how much maximum amount can be paid for it. The observation was made while ordering an insurance firm to pay the full medical bill of Rs 1.64 lakh to complainant Mayur Parmar for cataract surgery.

Parmar, 61, had undergone cataract surgery for both eyes in December 2022 and January this year and spent Rs 1.64 lakh on the treatment. He claimed insurance money from Oriental Insurance Company Ltd for the same. But the insurance firm partially approved his claim and agreed to pay Rs 49,000. The complainant said that the insurer refused to pay the full amount on the grounds that the expense of the cataract surgery wasn't customary and reasonable.

In February this year, Parmar filed a case against Oriental Insurance Company Ltd in the Vadodara District Consumer Disputes Redressal Commission (additional) and demanded reimbursement of full medical expenses. He said in his complaint that the insurer wrongly interpreted the policy's terms and partially rejected his claim.

After hearing both sides, the consumer forum observed that the policy doesn't mention what exactly reasonable and customary charge means and how the company has interpreted it. "The medical treatment fee varies in every hospital and as per the doctor. The fee of an expert doctor is usually high. The insurance firm can't decide which expense wasn't necessary during the treatment," the forum observed.

Also, the insurer can't decide how much charge (medical expenses) the complainant is entitled to get," the forum said and added that the insurance firm can't decide on the customary charge too. "Reasonable charge means the expenses done for the necessary treatment and hence it is not an excessive expense. The insurance firm cannot decide on how much and what kind of expense the doctor can do during treatment," the forum observed.

"Cataract surgery is a common surgery but the medical expense depends on which doctor does the surgery and what kind of lens are used. Terming the partial claim rejection unreasonable, the forum ordered the insurer to pay Parmar the remaining Rs 1.15 lakh with 9% interest within two months from the date of the order.

The insurer has also been ordered to pay Rs 5,000 each towards mental harassment and the legal cost.

ડિજિટલ હેલ્થકેર કમાન્ડ સેન્ટરો વિશે હેલ્થકેર સેક્ટરના એક્સપર્ટ વચ્ચે ચર્ચાઓ થઈ

સિટી રાઉન્ડ | એસોસિયેશન ઓફ હેલ્થકેર પ્રોવાઈડર્સ ઈન્ડિયા (AHPI) દ્વારા શનિવારે ગાંધીનગર ખાતે આરોગ્યમંત્રી ઋષિકેશ પટેલની હાજરીમાં AHPI ગ્લોબલ કોન્ક્લેવ ૨૦૨૪નું આયોજન કરવામાં આવ્યું હતું. કોન્ક્લેવની થીમ 'ઈન્ડિયા ઈઝ વિશ્વગુરુ ઈન હેલ્થકેર @૨૦૪૭-વિઝન ટુ રિયાલિટી' રાખવામાં આવી હતી.જેમાં હેલ્થકેર સેક્ટરની ૫૦૦ની વધુ પ્રભાવશાળી વ્યક્તિઓ અને વિચારશીલ નેતાઓ એકમંચ પર ભેગા થયા હતાં. સમગ્ર ભારતમાં આરોગ્યની સુવિધા અને ગુણવત્તા સુધારવા માટે ઈનોવેટિવ સોલ્યુશન અને સ્ટ્રેટેજીસ પર ચર્ચા કરવામાં આવી હતી. આ સાથે હેલ્થકેર ચર્ટિકલને અસર કરતા ભારતીય બજેટના પ્રકાશન પર ભાર મૂકવાની સાથે ડિજિટલ હેલ્થકેર કમાન્ડ સેન્ટરોના વિકાસ પર ચર્ચાઓ કરવામાં આવી હતી. ક્વોલિટી કાઉન્સિલ ઓફ ઈન્ડિયાના ચેરમેન અને કાર્યક્રમના ગેસ્ટ ઓફ ઓનર જયંત દાણે કહ્યું કે, 'સમયની માંગ છે કે હોસ્પિટલ ગવર્નન્સમાં ક્વોલિટી હેલ્થકેર અને દર્દીની સલામતીની ખાતરી કરવી મહત્ત્વપૂર્ણ છે. અમારો ધ્યેય એ છે કે દેશના અંતરિયાળ વિસ્તારમાં દરેક વ્યક્તિને આરોગ્યની સુવિધા મળી રહે.'

Accessibility and Availability Matter in Healthcare Infra

Dr. Girdhar Gyani, Director General, Association of Healthcare Providers (India)

a Wealthy Nation RECOMMENDATION FOR BUDGET 2024 Alexander Thomas and Divya Alexander

Guest - ImpactHealth
31 JANUARY, 2024

The healthcare sector plays a pivotal role in ensuring the well-being of a nation's citizens. However, in many countries, including ours, there is a pressing need to address various shortcomings and to enhance the overall healthcare landscape. In this regard, several recommendations have been put f address crucial areas that require

Early-stage wellness is our objective, says Dr Devi Shetty

'Amazing Things Happen When Insurers, Hosp & Patients Have Aligned Interests'

Heart surgeon Dr Shetty says ventures into managed healthcare with the newly licensed Narayana Health Insurance

TOI INTERVIEW

How will claims in managed healthcare be different from regular health insurance?

Even the wealthiest man may not know where to seek help for chest pain at night. Our program offers approaches for online consultations with nurses and doctors, ensuring prompt ambulance dispatch for conditions like potential strokes. Early treatment can reverse stroke effects. Our focus is on prevention, not just paying for care. We don't deny coverage based on existing conditions but adjust premiums based on risk scoring.

Will people be able to afford managed healthcare?

Most of the patients I treat belong to the working class. When I inform a mother that her child requires an operation, the first question is not about the risk or the surgery itself but rather the cost. If I say it will amount to Rs8lakh, it is quite humiliating when the parent touches our feet. Eventually, they sav

'आपराधिक धाराओं के हटने से अब डाक्टर बेहत ढंग से रोगियों को सेवाएं उपलब्ध करवा सकेंग

जालंधर, 26 दिसम्बर (धवन): भारत सरकार द्वारा संसद में 'भारतीय नागरिक सुरक्षा (सैकेंड) संहिता विधेयक 2023 (सी.आर.पी.सी. को बदलने) में किए गए संशोधन का डाक्टर समुदाय ने स्वागत किया है। नॉर्थ जोन एसोसिएशन ऑफ हैल्थ केयर प्रोवाइडर्स ऑफ इंडिया के सचिव तथा आई.एम.ए. पंजाब के पूर्व अध्यक्ष डा. यश शर्मा ने कहा कि कई बीमारियों की जटिलताओं के कारण कई बार इलाज के दौरान रोगियों की मौत हो जाती थी, जिसके लिए डाक्टरों को दोषी ठहराया जाता था, जबकि सभी डाक्टर अपने रोगियों को बेहतरीन चिकित्सा सुविधाएं उपलब्ध करवाते हैं।

उन्होंने कहा कि सुप्रीमकोर्ट ने जैकब मैथ्यू मामले में अपना फैसला सुनाते हुए कहा था कि डाक्टरों के गले पर तलवार नहीं लटकनी चाहिए। डाक्टरों को स्वतंत्र मन से काम करने दिया जाना चाहिए और डाक्टरों को पूर्ण स्वतंत्रता होनी चाहिए।

डा. यश शर्मा ने कहा कि आई.एम.ए. तथा ए.एच.पी.आई. ने मिलकर प्राइवेट अस्पतालों के अंदर भारी सुधार लाए हैं और अस्पताल प्रबंधनों से अस्पतालों में रोगियों के लिए बेहतरीन सुविधाएं उपलब्ध करवाई हैं।

उन्होंने कहा कि भारत सरकार द्वारा किए गए संशोधन के बाद अब डाक्टरों के लिए सजा को 5 वर्ष से घटाकर अधिकतम 2 वर्ष कर दिया गया है। उन्होंने कहा कि इससे डाक्टरों के ऊपर दबाव घटेगा तथा अंतत: रोगियों को इसका लाभ मिलेगा।

उन्होंने कहा कि डाक्टरों के खिलाफ पहले सैक्शन 304 ए तथा हत्या के मामले चलते थे परन्तु अब डाक्टर बिना किसी भय के काम कर सकेंगे। इससे वह रोगियों का बेहतर ढंग से उपचार कर सकेंगे। केंद्र गृहमंत्री अमित शाह ने संसद में कहा था कि रोग की मौत के लिए डाक्टर को जिम्मेदार नहीं ठहराया जा सकता है और इसे लगभग हत्या करार दिया जाता है इसलिए वह डाक्टरों को अपराधिक लापरवाही के दोषों से मुक्त करते हुए ही उक्त विधेयक लेकर आए हैं।

उन्होंने कहा कि देश के 17 राज्यों में डाक्टरों के खिलाफ होने वाली हिंसा को देखते हुए कानून बने हुए हैं और जल्द ही भारत सरकार भी एक अलग केंद्रीय कानून बनाएगी जिससे डाक्टरों का बचाव होगा।

उन्होंने कहा कि आयुष्मान योजना लागू होने से भी गरीबों को लाभ मिला है और उन्हें बेहतरीन चिकित्सा सुविधाएं मिल रही हैं। ऐसी योजनाओं से भी डाक्टरों और रोगी दोनों को लाभ हुआ है।

Centre exploring one-stop health sector regulator

The Hindu Bureau
NEW DELHI

Private doctor bodies say private and govt. insurance must come under proposed regulator's purview

The Central government is exploring setting up a health sector regulator that will bring private and government health insurance schemes under its purview to facilitate affordable insurance coverage for all, *The Hindu* has learnt.

The Ministries of Finance (MoF) and Health are in "initial discussions" over the need for a sector watchdog.

The Association of Healthcare Providers India (AHPI), in a letter to the MoF, welcomed this saying "making healthcare available, accessible, and affordable has been resolved by the present government. Penetration of private insurance is increasing at a fast rate and along with government-run insurance, India should soon be covering 70% of the population".

Doctors' bodies have urged that private and government insurance be brought under a single regulator. Meaning, regulating government schemes like Pradhan Mantri Jan Arogya Yojana, the Central Government Health Scheme, Employees' State Insurance Corporation, etc.

Dr. Girdhar Gyani, DG, AHPI said, "This can only happen, if government insurance schemes are restructured in a manner that more and more tertiary care hospitals come forward and get empanelled in these schemes to enable beneficiaries to get healthcare services".

Unmasking the silent epidemic threatening our youth

Indulging in new-age gateway products such as vaping is becoming a gateway for more individuals to initiate tobacco use

GIRDHAR J **GYANI**

In the ever-evolving landscape of tobacco use, a new spectre looms large – New-Age Gateway Products including Electronic Nicotine Delivery Systems (ENDS), heat-not-burn (HNB), e-hookah, e-cigarettes and Vapes. Beyond the familiar realms of smoking, this trend is not just a fad; it's a burgeoning concern with far-reaching consequences. Delving into the heart of the matter, we confront an escalating crisis that extends beyond traditional boundaries, ensnaring individuals including children globally in a web of lifelong addiction.

Recent studies underscore the alarming trend that indulging in New-Age Gateway Products such as vaping is becoming a gateway for more individuals, especially young adults, to initiate tobacco use. A notable survey reveals that a significant number of young people are getting hooked on e-cigarettes which can have a dangerous impact. This shift in initiation patterns raises serious concerns about the long-term health consequences and the potential for a new generation to be ensnared in the clutches of addiction.

One critical aspect of this issue is the data suggesting that these New-Age Gateway Products are not a substitute for smoking as pushed by international tobacco companies but a distinct and powerful initiator of addiction of a different nature. Several studies indicate that the number of individuals trying vaping is fast surpassing those who take up smoking. The allure of flavours, discreet packaging, and the misconception that vaping is less harmful contribute to its growing popularity, particularly among the youth.

An Australian expert recently addressed the Members of the Scottish Parliament, shedding light on a disconcerting reality — the vaping industry seems to have a profound interest in cultivating a new generation of lifelong customers. The marketing strategies employed by these international tobacco companies are designed to appeal to younger demographics, creating a concerning link between the rise in vaping initiation and the long-term goals of these corporations. The expert's testimony emphasizes the urgent need for regulatory measures to curb the influence of these entities on the youth.

While traditional smoking has long been associated with health risks, these New-Age Gateway Products introduce a different set of concerns. E-cigarettes often contain high levels of nicotine, a highly addictive substance. The ease with which one can access and use these devices, coupled with enticing flavours, makes them particularly appealing to young individuals. It is not uncommon for those who start with vaping to transition to an addictive model soon, amplifying the potential for lifelong addiction and its associated health hazards.

The World Health Organization (WHO) has also expressed apprehension about the impact of vaping on public health. The organization highlights the need for comprehensive regulations to address the risks associated with these products, ranging from their appeal to minors to the potential for serving as a gateway to other substance use. Governments worldwide are grappling with the challenge of crafting policies that strike a balance between harm reduction for existing smokers and protecting the youth from the allure of vaping.

In light of these findings, policymakers, public health officials, and communities must collaborate on effective strategies to curb the rising tide of initiation to New-Age Gateway Products. Education campaigns targeting both parents and students can play a pivotal role in dispelling myths surrounding vaping and its perceived harmlessness. Additionally, stringent regulations must be put in place to restrict the marketing outreach of these New-Age Gateway Products companies that seem intent on creating a new generation of addicts.

There is a need to advocate for a holistic approach around stringent enforcement on the ground to address the vaping epidemic. This includes robust educational initiatives, evidence-based policy reforms, and collaboration with experts and lawmakers to create a comprehensive framework that safeguards the well-being of our youth. By acknowledging the distinct threat posed by New-Age Gateway Products and taking decisive action, we can work towards mitigating the long-term consequences of this burgeoning public health crisis.

While it is alarming that a vast majority of children are unaware that these New-Age Gateway Products are already banned in India, access to these products seems to be at ease for those seeking them. Even law enforcement at the grassroots level needs to be made aware of this, or else porous and mis-declared imports into the country and their easy availability through those having access to school children can make this a serious upcoming health disaster waiting to happen.

AHPI welcomes proposed regulator exclusively for health insurance

The Association of Healthcare Providers India (AHPI), representing a vast majority of private sector hospitals in the country, is also represented on the Insurance Regulatory and Development Authority (IRDAI) advisory for the healthcare sector. In an official letter, the AHPI said, "This is a welcome

'G-20 meet Delhi declaration may boost healthcare infra'

AVINASH PRABHAKAR
NEW DELHI, SEPT. 14

With all three health priority issues being mentioned in the Delhi Declaration at the G-20 summit, the healthcare industry is hopeful that it will play a significant role in bringing the healthcare infrastructure to better than pre-pandemic levels.

India's health priorities included 'building resilient systems for health emergency prevention, preparedness, and creating a platform for sharing digital health innovations like CoWIN and e-Sanjeevani.'

Dr Girdhar Gyani, the director general of the Association of Healthcare Providers (AHPI), said that combining research and development, rigorous infection prevention measures, and vigilant consumption surveillance will play a crucial role in preserving the efficacy of antibiotics for future generations.

"Equally noteworthy scores the vital link between human, animal, and environmental health," said Dr Gyani.

The healthcare experts held that these priorities will build a resilient healthcare system and will create a platform for improving access to medical countermeasures and sharing digital goods between countries.

Apart from healthcare, the declaration will pave the way for a more sustainable future as the world grapples with the urgent need to combat

Dr Shetty's Narayana group to enter health insurance biz

Mayw.Shetty@timesgroup.com

Mumbai: Cardiac surgeon Dr Devi Shetty's Narayana Health group has sought a license from Irdai for a health insurance business.

The group has set up Narayana One Health, and roped in insurance industry veteran Ravi Vishwanath to lead it. Vishwanath was earlier in charge of health and accident businesses at HDFC Ergo.

Dr Shetty's model aims to offer affordable coverage by reducing the cost of treatment in hospitals through economies of scale, sources said. Dr Shetty (70), who received the Padma Bhushan in 2012 for his contri-

hensive coverage without any limitations in terms of provider or geographic area.

"It would be a boon for the industry if the model of affordable health coverage through cheaper healthcare takes off," said the CEO of a private he-

gery and being Mother Teresa's physician, founded Narayana Hirudayalaya in Bengaluru in 2001. In 2009, the US media dubbed him the 'Henry Ford' of heart surgery for his approach to achieving economies of scale in healthcare to reduce costs.

AFFORDABLE MEDICARE PLAY

- Dr Devi Shetty's health insurance model aims to offer affordable coverage by **reducing the cost of treatment through economies of scale**
- Narayana Health currently offers medical care plans that are restricted to the footprint of the healthcare provider
- Health insurance will enable coverage without limitations in terms of provider or geographic area
- Dr Shetty gained prominence for performing **India's first neonatal heart surgery** and being Mother Teresa's physician

The criminal liability of doctors under new code

Doctors are not granted immunity from criminal liability under the new law. The punishment for their negligence remains equivalent to the existing law, with no significant reduction, along with the imposition of a fine.

AHPI to be part of committee formed to ensure quality treatment under ABPM-JAY

■ Staff Reporter
RAIPUR, May 23

UNION Ministry of Health and Family Welfare has reconstituted the Quality Steering Committee to ensure the quality of treatment being provided by hospitals empanelled under the Ayushman Bharat Pradhan Mantri Yojana (ABPM-JAY).

"Directors of National Health Authority - Dr Pankaj Kumar Arora and Vipin Kumar Singh are respectively the Chairperson and Member Secretary of the Committee. Association of Healthcare Providers India (AHPI) has been made a member of this Steering Committee," Dr Rakesh Gupta, President, AHPI Chhattisgarh told *The Hitavada*.

According to Dr Gupta, the goal of Ayushman Bharat Pradhan Mantri Vojna (AB PM-JAY) is to improve access to quality healthcare at affordable prices, strengthen the health insurance ecosystem and encourage quality culture among the care providers. Quality is the core and most important aspect of service being rendered at any healthcare facility.

Dr Rakesh Gupta

"AHPI has been playing a leading role in the policy making of the health sector at the national level. Inclusion of AHPI in the Health Quality Assurance Committee is a major step in the health sector," he added.

Dr Gupta further recalled that the AHPI earlier too had brought to the notice of the Union Health Minister about the problems being faced in the treatment under Ayushman Bharat Scheme and how to make this scheme more effective.

Atul Singhania, General Secretary, AHPI Chhattisgarh informed that the AHPI has released its souvenir for the year 2022-2023 at the national level which has a special mention about AHPI Chhattisgarh.

It is pertinent here to mention that AHPI Chhattisgarh, under the leadership of President Dr Rakesh Gupta, has taken many initiatives such as bringing the issue of Ex-Servicemen Contributory Health Scheme (ECHS) outstanding to Defense Minister's notice; meeting the Health Minister for amendment in COTPA and the Health Secretary for improvement in healthcare facilities etc. Chhattisgarh was also given the Best Chapter Award in the International Conference organised by AHPI in Jaipur in February 2023.

Standardisation of medical treatment rates | CGHS rates for all will kill hospital industry. Range-pricing is the way forward, says AHPI's Girdhar Gyani

The Association of Healthcare Providers of India says that randomly applying Central Government Health Scheme rates will lead to a collapse of many hospitals, particularly the bigger ones. A scientific study to determine the range of rates is the way forward, says Girdhar Gyani, AHPI's Director General.

ELEVATING CANCER CARE

HCG Cancer Centre, Ahmedabad

Discover a new standard in cancer care with cutting-edge technology, multidisciplinary expertise, and unwavering dedication.

Why choose HCG?

Innovation meets compassion: Our team combines advanced treatments with personalized care, ensuring every patient receives the best possible outcome with empathy and understanding.

Precision in Practice: From state-of-the-art diagnostics to targeted therapies, we leverage the latest advancements to deliver precise and effective treatments, tailored to each patient's unique needs.

Collaborative Excellence: Join a network of healthcare professionals dedicated to improving cancer care through multidiscilplinary approach.

Experience the HCG Difference

Together, let's bring hope, healing, and innovation to those in need
